May 1st, 2025

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting community project funding for Indian Springs Construction Project in fiscal year 2026. The entity to receive funding for this project is, Clark County Water Reclamation District, 5857 E Flamingo Rd Las Vegas, NV 89122.

The funding would be used to replace for sewer replacement in Indian Springs, Nevada. In 2005, Clark County Water Reclamation District took over operations from the Indian Springs Sewage Company at the request of the Nevada Department of Environmental Protection due to operations being in violation of the terms and conditions of the discharge permit. The existing system was not constructed to Clark County Water Reclamation District design standards and portions of the collection system are approaching 60 years old. This construction project will replace aging infrastructure and provide a more reliable wastewater system. This will facilitate improved reliability of the wastewater services to the community and provide a positive impact on the community's public health and safety. This project will also provide environmental benefits by eliminating an outdated sewer system and providing access for future maintenance. The population served includes 1,407 connections -- 365 are residential connections, 20 are other connections, and the project population served is 378 connections.

The project is a good use of taxpayer funds because it will facilitate improved reliability of the wastewater services to the community and provide a positive impact on the community's public health and safety. This project will also provide environmental benefits by eliminating an outdated sewer system and providing access for future maintenance.

The project has a Federal nexus because the funding provided is for purposes authorized by Clean Water Act, 33 U.S.C. 1383(c) (Section 603(c) of the Clean Water Act).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in cursive script that reads "Steven Horsford".

Congressman Steven Horsford
