Dear Chairman Cole and Ranking Member DeLauro,

I am requesting community project funding for City of Las Vegas Vision Zero Program Implementation in fiscal year 2025. The entity to receive funding for this project is the City of Las Vegas, 495 S. Main St., Las Vegas, NV, 89101.

The funding would be used to implement strategies to enhance transportation safety along a number of corridors that have been identified as a “High Injury Network” as part of our Vision Zero Action Plan where traffic fatalities and serious injuries are heavily concentrated. The requested funding would be used toward construction of federally adopted countermeasures for improving transportation safety along the following roadways, four of which are located in the 4th District.

The project is a good use of taxpayer funds because City will advance our Vision Zero Action Plan and also help address The Roadway Safety Problem as defined in the United States Department of Transportation’s National Roadway Safety Strategy. The proposed physical improvements to the roadways will help drivers and vulnerable road users better understand how to safely navigate corridors and intersections. We will be introducing roadway elements that proactively encourage more aware and slower driving. For example, raised lane lines and reduced curb radii directly impact turning approach angles and speeds. The result is drivers can more easily see vulnerable road users, crossing distances are shorter, and because the design elements result in slower turning speeds, if there is a crash, it is likely to be less severe.

The project has a Federal nexus because the funding provided is for purposes authorized by 23 U.S.C 133.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink that reads "Steven Horsford".
